

SIMPLE SAFETY RULES

PLAN OF SPEECH

- Personal account security
- Security of funds
- Answers to questions

PERSONAL ACCOUNT SECURITY / RISKS

- Loss of access to your personal account
- Loss of funds
- Personal data leak

PERSONAL ACCOUNT SECURITY / POSSIBLE CAUSES

- Public display of your account data
- Hacking of a vulnerable site + using one password for all sites
- Phishing - Visiting sites with questionable content (not only pornsites, but sites with free movies, games, programs)
- Saving logins and passwords in a cloud service (e.g. Google)
- Creation of a duplicate SIM card

PERSONAL ACCOUNT SECURITY / RECOMMENDATIONS

- Avoid revealing personal data, or hide it when showing it on open sources
- Use separate resources (phone, email, devices) for important services.
- Avoid visiting suspicious sites on the device
- Do not save passwords and logins in open cloud services

PERSONAL ACCOUNT SECURITY / RECOMMENDATIONS

- Use password managers (preferably paid-for), for example 1password
- Log out of your personal account after each visit
- Use 2FA
- Visit important services in incognito mode

PERSONAL ACCOUNT SECURITY / RECOMMENDATIONS

- Set PIN code for creation of a duplicate SIM card - use mobile operators without outlets where you can come and create one, for example Tinkoff Mobile
- Check the possibility of login into your personal account once in a while

SECURITY OF FUNDS / POSSIBLE CAUSES

- Sending funds to a wallet to which you do not have access
- Sending funds to someone else's wallet
- Sending funds to a third party

SECURITY OF FUNDS / RECOMMENDATIONS

- Before making a CFR-BTC exchange request, always check the correctness of the address and access to the wallet.
